What's New

COVID-19: In Los Cabos there has been a tightening of operating guidelines for hotels, restaurants and bars but all are still open. Bars have to close earlier and no live music is happening. Mask requirements and social distancing guidelines remain.

Biggest news are the Covid testing requirements of Canada and the US. Canada requires the stricter and more expensive (negative) test within 72 hours of flying back to Canada to be admitted. The US is looking for the much less expensive (negative) Antigen test within 72 hours of flying back to America to be admitted.

A quarantine on return to the US is in the air but definitive details are not available yet.
